

ELECTRIC VACUUM PUMP

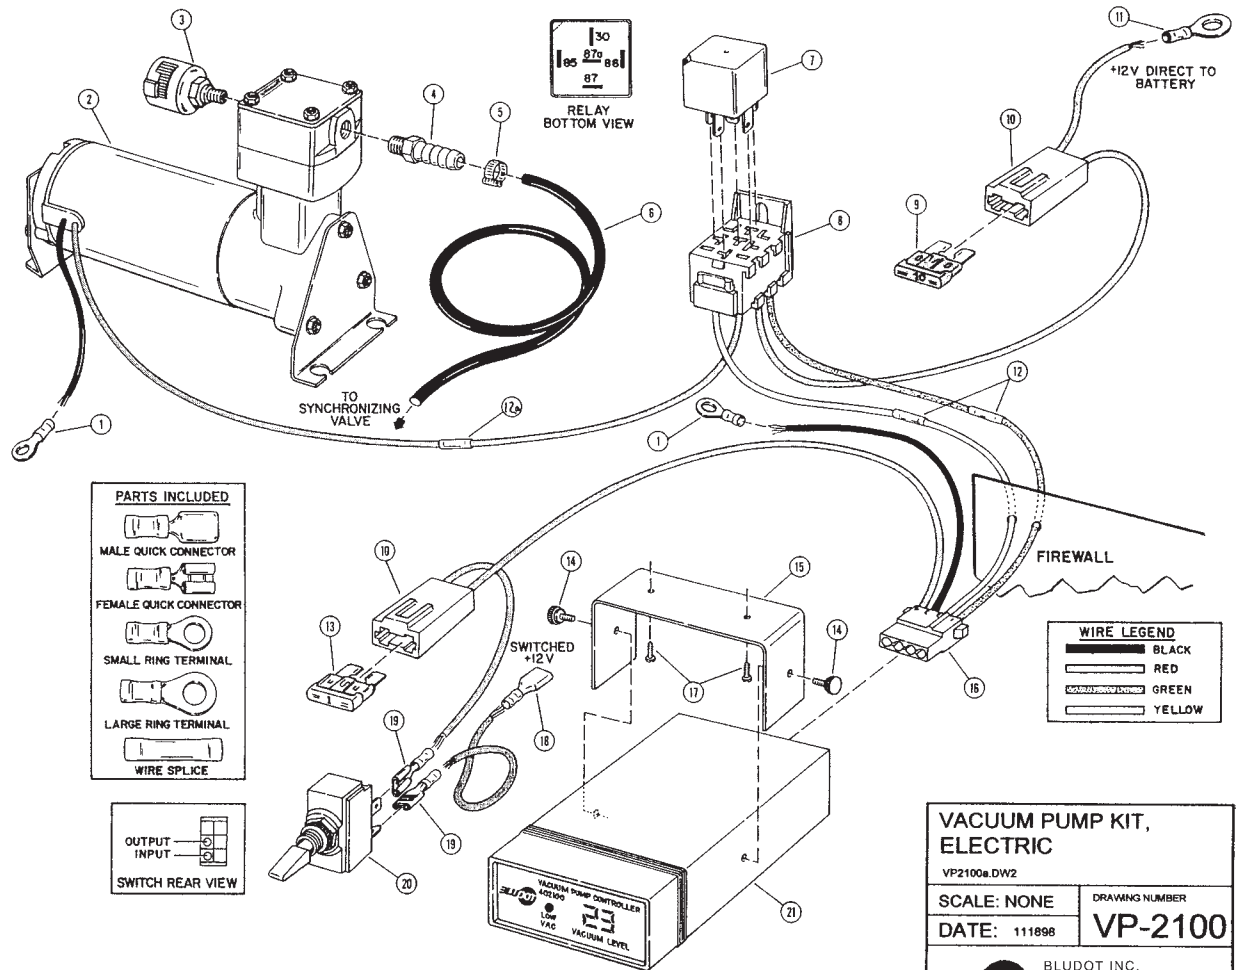

(Patent No. 5,823,637)

The universal **Electric Vacuum Pump Kit, VP-2100**, provides a vacuum source for diesel and EFI engine vehicles with vacuum/hydraulic braked trailers. This is a direct drive 12V pump that requires no pulleys or belts.

Features

- Altitude adjustable
- Low vacuum warning light & buzzer
- Removable to reduce changeover costs to new tow vehicle
- Constant LED display of vacuum level in inches of mercury
